Ludwig S., Stitz L., Planz O., Van H., Fitch W.M., Scholtissek C.	European swine virus as a possible source for the next influenza pandemic?	1995	Virology	212	2	56	monoclonal antibody; animal cell; article; bird; controlled study; europe; evolution; genetic variability; influenza; nonhuman; phylogeny; priority journal; swine; swine influenza virus; virus mutant; Animal; Antibodies, Monoclonal; Antibodies, Viral; Antigens, Viral; Chick Embryo; Disease Outbreaks; Europe; Evolution, Molecular; Genes, Viral; Hemagglutinins, Viral; Human; Influenza; Influenza A Virus, Human; Influenza A Virus, Porcine; Molecular Sequence Data; Mutagenesis; Neutralization Tests; Phylogeny; RNA, Viral; Sequence Analysis, DNA; Species Specificity; Support, Non-U.S. Gov't; Swine; Animalia; Aves; Avian influenza virus; Influenza A virus; Influenza virus; Sus scrofa; Swine influenza virus	Epidemiology; Preparedness
Webster R.G., Shortridge K.F., Kawaoka Y.	Influenza: Interspecies transmission and emergence of new pandemics	1997	FEMS Immunology and Medical Microbiology	18	4	32	conference paper; evolution; human; influenza; influenza virus; nonhuman; priority journal; strain difference; virus transmission; world health organization; Animals; Birds; Disease Outbreaks; Disease Transmission, Horizontal; Humans; Influenza, Human; Mutation; Orthomyxoviridae; Population Surveillance; Swine; Virulence; World Health	Epidemiology
Cox N.J., Fukuda K.	Influenza	1998	Infectious Disease Clinics of North America	12	1	44	absenteeism; climate; clinical feature; death; epidemic; hospitalization; human; infection; influenza; influenza vaccination; influenza virus; morbidity; respiratory tract disease; review; Antigens, Viral; Gene Frequency; Humans; Influenza Vaccines; Influenza, Human; Orthomyxoviridae	Surveillance; Epidemiology; Treatment; Vaccination; Virology
Schilling M., Povinelli L., Krause P., Gravenstein M., Ambrozaitis A., Jones H.H., Drinka P., Shult P., Powers D., Gravenstein S.	Efficacy of zanamivir for chemoprophylaxis of nursing home influenza outbreaks	1998	Vaccine	16	18	48	Rimantadine; zanamivir; article; clinical trial; controlled study; drug efficacy; human; influenza; influenza virus; nursing home; prevalence; priority journal; prophylaxis; randomized controlled trial; respiratory tract disease; treatment outcome; virus culture; Aged; Antiviral Agents; Disease Outbreaks; Female; Guanidines; Humans; Influenza A virus; Influenza B virus; Influenza, Human; Male; Nursing Homes; Prospective Studies; Pyrans; Random Allocation; Rimantadine; Sialic Acids; Treatment Outcome; Wisconsin; Zanamivir	Prevention
Belshe R.B.	Influenza as a zoonosis: How likely is a pandemic?	1998	Lancet	351	9101	12	hemagglutinin; influenza vaccine; fowl plague virus; human; influenza; influenza virus; nonhuman; priority journal; short survey; vaccine production; virus transmission; virus virulence; zoonosis; Animals; Asia; Chickens; Disease Outbreaks; Hong Kong; Humans; Influenza A virus; Influenza in Birds; Influenza, Human; Zoonoses	Epidemiology
Bernstein E., Kaye D., Abrutyn E., Gross P., Dorfman M., Murasko D.M.	Immune response to influenza vaccination in a large healthy elderly population	1999	Vaccine	17	1	72	gamma interferon; influenza vaccine; virus antibody; aged; antibody response; article; cellular immunity; cytokine production; female; human; human cell; humoral immunity; influenza; influenza vaccination; major clinical study; male; mononuclear cell; priority journal; retirement; Aged; Aged, 80 and over; Aging; Antibodies, Viral; Female; Humans; Immunity, Cellular; Influenza Vaccines; Influenza, Human; Lymphocyte Activation; Male; T-Lymphocyte Subsets; T-Lymphocytes	Immunity
Remarque E.J., De Jong J.M.A., Van Der Klis R.J., Masurel N., Ligthart G.J.	Dose-dependent antibody response to influenza H1N1 vaccine component in elderly nursing home patients	1999	Experimental Gerontology	34	1	11	immunoglobulin a1; immunoglobulin g; immunoglobulin m; influenza vaccine; adult; aged; antibody response; antibody titer; article; controlled study; dose response; human; immunogenicity; influenza; influenza vaccination; intramuscular drug administration; major clinical study; nursing home; priority journal; Adult; Aged; Aged, 80 and over; Aging; Antibodies, Viral; Antibody Specificity; Dose-Response Relationship, Immunologic; Humans; Immunoglobulin A; Immunoglobulin G; Immunoglobulin M; Influenza Vaccines; Nursing Homes; Vaccination	Vaccination
Garten W., Klenk H.-D.	Understanding influenza virus pathogenicity	1999	Trends in Microbiology	7	3	26	influenza virus; nonhuman; note; pathogenicity; priority journal; Animals; Hemagglutinin Glycoproteins, Influenza Virus; Humans; Orthomyxoviridae; Influenza virus	Pathogenesis
Cox N.J., Subbarao K.	Influenza	1999	Lancet	354	9186	243	amantadine; antiviral agent; influenza vaccine; live vaccine; oseltamivir; rimantadine; sialidase; sialidase inhibitor; unclassified drug; zanamivir; acute respiratory tract disease; clinical practice; clinical trial; complication; diagnostic test; disease control; high risk population; human; influenza; Influenza virus A; Influenza virus B; Inhalational drug administration; intranasal drug administration; oral drug administration; priority journal; recurrent disease; review; Administration, Intranasal; Adolescent; Adult; Aged; Antiviral Agents; Child; Humans; Influenza Vaccines; Influenza, Human; Orthomyxoviridae; Respiratory Tract Diseases; Reye Syndrome	Surveillance; Epidemiology; Treatment; Vaccination; Virology
Lavanchy D.	The importance of global surveillance of influenza	1999	Vaccine	17	SUPPL. 1	9	influenza vaccine; conference paper; epidemic; health survey; influenza; influenza vaccination; priority journal; virus isolation; Humans; Influenza, Human; World Health; World Health Organization	Surveillance
Simonsen L.	The global impact of influenza on morbidity and mortality	1999	Vaccine	17	SUPPL. 1	78	influenza vaccine; conference paper; cost effectiveness analysis; disease severity; epidemic; influenza; influenza vaccination; morbidity; mortality; priority journal; tropics; Humans; Influenza, Human; Morbidity; World Health	Epidemiology
Neuzil K.M., Wright P.F., Mitchel Jr E.F., Griffin M.R.	The burden of influenza illness in children with asthma and other chronic medical conditions	2000	Journal of Pediatrics	137	6	168	article; asthma; child; chronic disease; disease classification; human; immunization; infection prevention; infection risk; influenza; major clinical study; priority journal; Adolescent; Ambulatory Care; Anti-Bacterial Agents; Asthma; Child; Child, Preschool; Chronic Disease; Cohort Studies; Cost of Illness; Drug Utilization; Female; Heart Diseases; Hospitalization; Humans; Infant; Influenza Vaccines; Influenza, Human; Lung Diseases; Male; Morbidity; Retrospective Studies; Seasons; Tennessee	Epidemiology
Monto A.S., Moulton A.B., Sharp S.J.	Effect of zanamivir on duration and resolution of influenza symptoms	2000	Clinical Therapeutics	22	11	15	amantadine; oseltamivir; placebo; sialidase inhibitor; zanamivir; aged; antiviral activity; article; clinical trial; disease duration; disease severity; drug effect; drug efficacy; high risk population; human; influenza; Influenza virus A; Influenza virus B; major clinical study; respiratory system; treatment outcome; virus replication; Administration, Inhalation; Adult; Aged; Antiviral Agents; Clinical Trials, Phase II; Clinical Trials, Phase III; Enzyme Inhibitors; Guanidines; Humans; Influenza, Human; Middle Aged; Neuraminidase; Pyrans; Randomized Controlled Trials; Sialic Acids; Zanamivir	Treatment
McKimm-Breschkin J.L.	Resistance of influenza viruses to neuraminidase inhibitors - A review	2000	Antiviral Research	47	1	143	Influenza virus hemagglutinin; oseltamivir; sialidase inhibitor; unclassified drug; zanamivir; drug effect; drug sensitivity; gene mutation; Influenza virus; multidrug resistance; nonhuman; priority journal; review; virus characterization; virus mutant; virus mutation; virus resistance; Amino Acid Substitution; Animals; Antiviral Agents; Drug Resistance, Microbial; Enzyme Inhibitors; Glutamic Acid; Guanidines; Humans; Mutation; Neuraminidase; Orthomyxoviridae; Protein Folding; Pyrans; Sialic Acids; Zanamivir	Treatment
De Jong J.C., Rimmelzwaan G.F., Fouchier R.A.M., Osterhaus A.D.M.E.	Influenza virus: A master of metamorphosis	2000	Journal of Infection	40	3	28	antigenic variation; epidemic; influenza; influenza virus; metamorphosis; review; virus morphology; virus virulence; Antigenic Variation; Disease Outbreaks; Hemagglutinin Glycoproteins, Influenza Virus; HN Protein; Humans; Influenza Vaccines; Influenza, Human; Orthomyxoviridae; Reassortant Viruses; Virulence	Virology
Webster R.G.	Immunity to influenza in the elderly	2000	Vaccine	18	16	74	influenza vaccine; interleukin 2; aged; aging; caloric restriction; cellular immunity; cytokine release; human; humoral immunity; influenza; influenza vaccination; nonhuman; priority journal; review; senescence; virus immunity; Aged; Aging; Antigenic Variation; Antigens, Viral; Cell Division; Disease Outbreaks; Humans; Influenza Vaccines; Influenza, Human; Orthomyxoviridae; T-Lymphocytes	Immunity
Demicheli V., Jefferson T., Rivetti D., Deeks J.	Prevention and early treatment of influenza in healthy adults	2000	Vaccine	18	40158	132	amantadine; antiviral agent; influenza vaccine; oseltamivir; rimantadine; sialidase inhibitor; unclassified drug; zanamivir; clinical trial; cost effectiveness analysis; cost utility analysis; drug cost; drug efficacy; drug induced disease; drug safety; human; infection prevention; influenza; influenza vaccination; intranasal drug administration; meta analysis; multicenter study; oral drug administration; priority journal; quality of life; review; Adolescent; Adult; Amantadine; Antiviral Agents; Cost-Benefit Analysis; Guanidines; Humans; Influenza Vaccines; Influenza, Human; Middle Aged; Pyrans; Rimantadine; Sialic Acids; Zanamivir	Preparedness; Treatment
Kramarz P., Destefano F., Gargiulo P.M., Davis R.L., Chen R.T., Mullooly J.P., Black S.B., Bohke K., Ward J.I., Marcy M.S., Okoro C.A.	Influenza vaccination in children with asthma in Health Maintenance Organizations	2000	Vaccine	18	21	88	beta adrenergic receptor stimulating agent; cromoglycate disodium; influenza vaccine; adolescent; algorithm; article; asthma; child; drug effect; female; health maintenance organization; hospitalization; human; immunization; influenza vaccination; major clinical study; male; prediction; prescription; priority journal; socioeconomic; Adolescent; Asthma; Child; Child, Preschool; Female; Health Maintenance Organizations; Humans; Infant; Influenza Vaccines; Male; Vaccination	Vaccination
Kaminsky G.L., Reinhart C.M.	On crises, contagion, and confusion	2000	Journal of International Economics	51	1	99	financial crisis; lending behavior; trade flow	Epidemiology; Preparedness
Kuszewski K., Brydak L.	The epidemiology and history of influenza	2000	Biomedicine and Pharmacotherapy	54	4	12	influenza vaccine; article; epidemic; health care policy; history of medicine; human; incidence; influenza; influenza vaccination; Influenza virus; nonhuman; Poland; priority journal; Humans; Influenza, Human; Poland; Time Factors	Epidemiology
Taubenberger J.K., Reid A.H., Fanning T.G.	The 1918 influenza virus: A killer comes into view	2000	Virology	274	2	50	disaster; epidemic; Europe; human; influenza; Influenza virus A; mortality; phylogeny; priority journal; short survey; United States; virus virulence; Disease Outbreaks; Hemagglutinin Glycoproteins, Influenza Virus; History, 20th Century; Humans; Influenza A virus; Influenza, Human; Neuraminidase; Phylogeny; Virulence	Epidemiology; Virology
Claas E.C.J.	Pandemic influenza is a zoonosis, as it requires introduction of avian-like gene segments in the human population	2000	Veterinary Microbiology	74	1-2	9	conference paper; epidemic; genetic drift; Hong Kong; human; influenza; Influenza virus; Netherlands; virus transmission; zoonosis; Animals; Antigenic Variation; Disease Outbreaks; Humans; Influenza A virus; Influenza, Human; Orthomyxoviridae; Reassortant Viruses; Seasons; Zoonoses; Aves; Avian influenza virus; human influenza virus; Influenza A virus; Influenza virus; Mammalia	Virology
Brown I.H.	The epidemiology and evolution of influenza viruses in pigs	2000	Veterinary Microbiology	74	1-2	69	conference paper; controlled study; evolution; Influenza virus; Influenza virus A; nonhuman; prevalence; species difference; United Kingdom; Animals; Evolution, Molecular; Humans; Orthomyxoviridae; Orthomyxoviridae Infections; Swine; Swine Diseases; Turkey; Variation (Genetics); Zoonoses; Aves; human influenza virus; Influenza A virus; Influenza virus; Mammalia; Sus scrofa	Epidemiology; Virology
Larsen D.L., Karasin A., Zuckermann F., Olsen C.W.	Systemic and mucosal immune responses to H1N1 influenza virus infection in pigs	2000	Veterinary Microbiology	74	1-2	25	gamma interferon; immunoglobulin G; secretory immunoglobulin; animal experiment; animal model; animal tissue; conference paper; controlled study; enzyme linked immunosorbent assay; experimental infection; immune response; Influenza virus; Influenza virus A; nonhuman; swine; Animals; Antibodies, Viral; Enzyme-Linked Immunosorbent Assay; Hemagglutination Inhibition Tests; Immunity, Mucosal; Immunoglobulin G; Immunoglobulin G; Influenza A virus; Influenza A Virus, H1N1 Subtype; Interferon Type II; Orthomyxoviridae Infections; Swine; Swine Diseases; Influenza virus; Sus scrofa; Swine influenza virus	Immunity
Julkunen I., Sareneva T., Pirhonen J., Ronni T., Melen K., Matikainen S.	Molecular pathogenesis of influenza A virus infection and virus-induced regulation of cytokine gene expression	2001	Cytokine and Growth Factor Reviews	12	39874	82	alpha interferon; antiviral agent; beta interferon; caspase; cytokine; gamma interferon; immunoglobulin enhancer binding protein; interferon regulatory factor 1; interleukin 12 receptor; interleukin 18; interleukin 18 receptor; interleukin 1beta; interleukin 6; macrophage inflammatory protein 1alpha; monocyte chemoattractant protein 1; monocyte chemoattractant protein 3; RANTES; STAT protein; synthetase; transcription factor; tumor necrosis factor alpha; animal; apoptosis; cell survival; cytokine production; enzyme activation; epithelium cell; gene expression regulation; genetic transcription; host cell; human; immune response; immunity; infection prevention; influenza; Influenza virus A; leukocyte; macrophage; nonhuman; pathogenesis; receptor upregulation; review; RNA translation; signal transduction; T lymphocyte; Th1 cell; virus replication; Animals; Apoptosis; Caspases; Cytokines; Gene Expression Regulation; Humans; Immunity, Natural; Influenza A virus; Influenza, Human; Macrophages; T-Lymphocytes; Transcription Factors; Virus Replication; Influenza A virus; Influenza virus	Pathogenesis; Virology
